Assistant System Engineer

Tata Consultancy Services

Jul 2019 - Jul 2020 (1 year 1 month)

I was working as a Node JS Developer for this period for another utility domain client for TCS.

- The project was about building the solution which was to upgrade the existing On-premise system with a Cloud-based solution hosted in Azure Kubernetes System.
- I worked as a Developer to create multiple REST API endpoints in NodeJS.
- Awarded with the On the spot award between this period.
- Also recognized by the client in the weekly newsletters.

Graduate Trainee

Tata Consultancy Services

Jan 2018 - Jul 2019 (1 year 7 months)

Upon completion of the training period in Ignite, I was allocated to a Utilities(Energy) project where my role was as an analyst I was working with analyzing the application and providing test scenarios.

- Helped to create automated test scripts to reduce manual efforts by 70%.
- Also, helped with preparing Daily and Weekly Status Reports for the customer.
- Awarded the Learning Achievement Award twice for completion of multiple training on PL/SQL.
- Awarded with the On the Spot award twice during this period for the work done with regards to Automation and Analysis of the System.
- Recognized by the Customer for the completion of the Automation and Analysis of the system.

Graduate Trainee

Tata Consultancy Services

Jul 2017 - Dec 2017 (6 months)

Started the IT journey with TCS as a Graduate Trainee. It involved a lot of learning. The training included Technologies like Java, Javascript, Angular, etc. along with the data structure and algorithms. It was also to develop professional proficiency in technologies and personality.
